East Cobb Dentists Open a New State of the Art Facility

East Cobbers may have noticed a new building recently raised at the site of Marietta Family Dental Care, P.C., 4720 Lower Roswell Road. Drs. Azita and Michael Mansouri are proud to announce the opening of the new home of their practice and welcome the community to visit their brand new, state-of-the-art facility.

The husband and wife team of Drs. Azita and Michael Mansouri have practiced dentistry in East Cobb since 2008. Formerly housed in a 1950s-era converted home, the Mansouris were delighted to build a more modern facility in essentially the backyard of the former building. The grand opening was held on May 9, 2011.

The interior was designed by Dr. Azita and the Mansouris said their goal was to give patients a “cozy, homey feeling” with patient comfort as the foremost concern. Patients who consider a trip to the dentist as relaxing as, well, a root canal, will enjoy Temper-Pedic cushioning and an entertainment station at every chair, the soothing sounds of water features throughout the office and even a refreshment center while they wait.

The music and movie option in the entertainment center is particularly useful during longer procedures and includes Bose noise-cancelling headsets, allowing patients to focus on the music instead of the dentistry.

New technology is an integral part of this state-of-the-art facility and patients will see the difference during even a routine visit. With their new camera system, the Drs. Mansouri are able to immediately share digital images of patients’ teeth on a computer screen, eliminating the often awkward maneuvering of a tiny mirror in a patient’s mouth.

The new facility allows them to offer most procedures under one roof, including root canals and implants, saving their patients the time, expense and anxiety of seeking treatment in multiple offices. Dr. Michael is licensed to perform oral sedation as well.

Drs. Azita and Michael are passionate about giving back to the East Cobb community. They sponsor various athletic teams at Walton, Sope Creek and Dickerson schools and members of their staff are often found speaking at area elementary schools about oral health and hygiene.

They are also active participants in “Dentistry from the Heart,” a non-profit organization that provides free dental care. The Mansouris plan to host a Dentistry from the Heart event at their new office this fall.

Drs. Azita and Michael have recently been inducted into the Hinman Dental Society and are members of the American Academy of Cosmetic Dentistry, American Dental Association, American Dental Education Association, Academy of General Dentistry and Georgia Dental Association. Dr. Michael graduated from Walton High School and received his DMD degree from Temple University School of Dentistry. Dr. Azita received her DMD degree from University of Florida College of Dentistry.

Marietta Family Dental Care offers all general family dentistry procedures for patients ages three and up. Cosmetic procedures including Invisalign are also offered. They accept most PPO insurance plans and offer payment plans and third party financing for those without insurance.
